About the Winternship

details and responsibilities

Looking for an aspiring Wintern, who's on a production track and eager to gain experience and skills in a full-service video production environment. Explore all aspects of production, including pre-production, studio and live production, and post-production, while assisting with production equipment maintenance and management.

The right Wintern will be highly organized and detail-oriented. The ability to take direction, multi-task, and solve problems creatively is important. You'll get hands-on experience and report to the supervising Director of Internships.

Job Description:

- Assist with upkeep of the equipment room space and storage, and in-house studio.
- Assist with maintenance and repairs of cameras, lenses, audio, and G&E equipment.
- Help as needed with pre-production activities and production projects.
